

Denver DeComP 2015 – A City of Dark & Light

Event Summary

event date = 10/10/2015

Forward momentum increased for Denver DeComP in 2015; volunteerism, attendance, permitting, revenue, art grants, & overall mass were record breaking. The planning team increased in size & scope. The attendance driven planning/voting process seems to be breeding a culture of enthusiastic involvement & ownership; spawning a great synergy that has inspired creativity & sown a culture of inclusion & cooperation.

Topics:

STATISTICS

Total Volunteers:	420 people
Unique Art Installations:	20 (12 outside, 8 inside)
Performance Artists:	27 people
Fire Dancers:	30 people
DJ/Music Performers:	36 people

LOOKING BACK

A reduction in usage of water cups, drink cups, lids, straws, & napkins should be considered for future events

Trash disposal needs were underestimated resulting in an overflow of scarcely available trash bins

A high volume of recyclable materials were disposed of in Landfill bins

Leave No Trace was duty-bound to accommodate (on our behalf) the oversight in

Trash/Recycling, despite a shortfall in volunteer numbers for this category

Service lines for indoor & outdoor bars were prohibitively long during the height of the event

LOOKING FORWARD

A recommendation & self-nomination for Recycling Lead has been incorporated

Suggestion of inclusion of Recycling Lead into all future regional events

Sanitation/Port-o-potty requirements will be overestimated for future events

Sound/noise limits will be more closely explored prior to the event to avoid violations

Radio communication protocol will be implemented

Action:

! live life

NEXT MEETING = Spring 2016
